## Access the Very Best Technology in the Industry

Dear Sir/Madam,

Tech Equity is Google Cloud partner and reseller. We train Google employees, clients and partners around the world, and help organisations, both large and small, cost effectively access cloud services.

Our Application Modernization Program enables startups to have access to a production ready, scalable and secure Google Kubernetes Engine (GKE) and Cloud SQL platform in less than a week. GKE, a managed Kubernetes platform from Google, is recognized as the best platform for managing container based applications.

We enable our clients access to the very best technology in the industry, while achieving an average cost reduction of up to 50% through the use of budget management tools, and smart selection and configuration of cloud services.

As a new Google Cloud client, we will work with the Google Cloud team to secure cloud credits. Our Application Modernization Program for Startups includes the deployment of industry solutions using fully automated scripts. This enables you to experience the groundbreaking capabilities of the Google Cloud at no cost.
