Build a Business Reselling Cloud Services

Dear Sir/Madam,

Tech Equity is Google Cloud partner and reseller. We train Google employees, clients and partners around the world, and develop solutions that enable sales and marketing professionals to offer cloud services to their customers.

Our Reseller Portal enables sales and marketing agents, particularly those without a technical background, to generate income by facilitating access to cloud services by independent professionals, as well as businesses, both large and small.

Sales and marketing agents can generate additional revenue by offering more advanced application services based on our optimised Google Kubernetes Engine and Cloud SQL Application Management Platform. This cost optimised platform delivers more value at a price point up to 50% lower, when compared to the best alternatives.
